Book 1 - Alkaline Diet 5 Super Useful Tips To Lose Weight using Alkaline Diet Plan, Alkaline Water and Alkaline Foods. Donuts, Twinkies, French fries, soft drinks, the standard American diet is centered around processed foods. Beyond the obvious health risks that these unhealthy and fattening oils produce, these are all highly acidic foods. Of course our body has natural counter systems in charge of neutralizing this acid, but it does put stress on the organs involved, even in healthy bodies. Excess acid is harmful in that it not only stresses organs such as our kidneys but in that it has the potential of interfering with key bodily processes critical to ensuring that the body runs normally. The Alkaline Diet easily solves all those problems and provides extra energy in our day to day lives by taking the stress off our organ systems through eating alkaline foods that naturally neutralize the acidity from other food without having to use the acid-neutralizing systems to do so! How does the Alkaline Diet work? The main source of alkaline foods the diet is centered around is fresh fruits and vegetables.
